Notification for Launch Contact

We are informing you that we intend to submit the following for a verification of a launch execution with a date of launch in Q4 2017.

Mission Overview

“Skylark-A10” a 35 kg / 1 kg / rideshare satellite, will be owned and operated by Adobri to be used in the Google Lunar XPRIZE mission to achieve a Lunar Orbit. The craft will utilize a series of rocket motors to achieve Lunar orbit. Upon arrival to Lunar orbit the satellite will take images of the Lunar surface and send the images back to Earth to attempt to claim the Google Lunar XPRIZE sub-prizes. More importantly, confirming a cost effective approach for a delivery system to Lunar orbit.

Launch Arrangements

1. Rideshare flight with Synergy Moon provided by interorbital system.
2. 1kg payload delivery to near lunar location within 6,000km by interorbital system.
3. Simultaneously working on a Launch possibility for a mission described under “Mission Overview” Skylark-A10 using ISRO’s PSLV.

Please note, the first available scenario described above in the Launch Arrangements will be executed first.

Copy of Launch Contact

1. Signed contract with Interorbital is attached in the package. We are working with interorbital using clause seven, "*Scheduled Launch Slot Transfer: All pre-purchased launches are transferable, but only with the written permission and approval of Interorbital Systems.*" of the contract to change the Launch slot date and mission to 1kg payload delivery to near lunar location within 6,000km.
2. Contact with ISRO is in envelope approval stage of Skylark-A10.

Evidence of Financial Commitment / Capability

1. Rideshare with Synergy Moon will be based on technical contribution to the mission provided by Team Plan B. Additionally to the technical contribution, initial payment for the contract for 1 kg to interorbital will be transferred to the mission.
2. Attached in the package is a copy of payment to interorbital allowing us to use exercise clause seven of the launch contract with Interorbital.
3. ISRO's PSLV, Team Plan B advisors are looking to close the finances for the launch of Skylark-A10.

Sincerely

Alex Dobrianski
